Trade-marks Journal

Vol. 64 No. 3289

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

Class 01

(1) Unprocessed artificial resins; Unprocessed plastics; Adhesives for use in heat treatment of metals; Carbon materials, in particular graphite, carbon, carbon graphite, electrographite, metal graphite; Artificial resin-bonded graphite; Silicon carbide and graphite composite materials; Silicon carbide; Silicon dioxide (quartz); Aluminum oxide; Ceramics, namely technical ceramics; Graphite for industrial purposes

Class 06

(2) Common metals and their alloys; Metal reinforcement materials for building; Transportable buildings of metal; Materials of metal for railway tracks; Non-electric cables and wires of metal; Metal hardware and small items of metal hardware, namely bearings, pump components; Goods of metal, namely gears, bearings, pump components; Components of metal composite materials, namely gears, bearings, pump components; Sintered metal parts, in particular sintered metal bearings, sintered filters, sintered moldings of iron, steel, bronze, aluminum and stainless metal materials; Semi-finished goods (stampings) of metal; Metal strands; Moldings of light metal and heavy metal castings; Injection moldings of metal manufactured by means of powder metallurgy; Foam aluminum; Transportable clean room cells of metal; Enameled facade and wall claddings; Wall and ceiling panels with integrated ventilation components of metal; Heat-insulating metal walls ; Supply air systems for operating theaters being air supply ceilings or wall outlets comprising pressure chambers of stainless steel or zinc-coated steel sheets, air distribution elements and air outlets of perforated stainless steel sheets and profiles of aluminum or steel sheets

Class 07

(3) Electric motors for machines, aforementioned goods except handling devices, namely clamps and grippers; Power transmission couplings for machines, other than for land vehicles, aforementioned goods except handling devices, namely clamps and grippers; Electric Motors, other than for land vehicles, in particular for air conditioning and heating apparatus; Parts of machines or motors, in particular bearings, pumps, pump components, valves for pumps and blowers, filters for oil, gas and air, fans for air conditioning and heating apparatus, aforementioned goods except handling devices, namely clamps and grippers; Parts of machines or motors of carbon, CFC, graphite or being semi-finished products, in particular contact parts, sliding contacts, electrodes, carbon brushes, holders and guides for carbon brushes, sliding inserts, current collectors,

pantographs, pistons, Water-tight rings, sealing joints, sealing rings, molds, tubes and pipes for production installations for producing silicon, silicon monocrystals and wafers, aforementioned goods except handling devices, namely clamps and grippers; Moldings, where appropriate in combination with metal parts or plastics for machines for applications of all kinds, motors and electro-technical apparatus, aforementioned goods except handling devices, namely clamps and grippers; Parts of machines or motors for chemical apparatus construction, in particular of ceramic materials, aforementioned goods except handling devices, namely clamps and grippers; Components for electric motors; Sintered metal parts, in particular sintered metal bearings, sintered filters, sintered moldings of iron, steel, bronze, aluminum and stainless materials for motors and machines for applications of all kinds, aforementioned goods except handling devices, namely clamps and grippers; Apparatus and installations for generating ultrasound for industrial purposes, in particular ultrasonic welding machines, ultrasonic metal welding installations, aforementioned goods except handling devices, namely clamps and grippers; Tools for further manufacture of wafers, aforementioned goods except handling devices, namely clamps and grippers; Tools for machines, in particular forging molds for pressing and punching, sintering molds, soldering templates being parts of soldering machines, aforementioned goods except handling devices, namely clamps and grippers; Heat pumps; Compressors for refrigerators; Aerators; Air condensers; Compressed air pumps; Compressors for air conditioning and heating; Pneumatic conveyors, aforementioned goods except handling devices, namely clamps and grippers; Compressed air engines; Machines, apparatus and systems for capturing and exhausting emissions and pollutants, in particular for product, person and area protection, namely air filters for engines, air filters for automobile engines, air filters for motors, filters for oil, gas air, aforementioned goods except handling devices, namely clamps and grippers; Laminar flow installations, namely work benches, biological safety cabinets for the pharmaceutical and food industry, aforementioned goods except handling devices, namely clamps and grippers; Laminar flow superstructures of production machines comprising heating and cooling and pipetting robots for use in environmental testing chambers, aforementioned goods except handling devices, in particular clamps and grippers

Class 09

(4) Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely electric transformers; Temperature controllers and regulators for air conditioning and heating apparatus, namely air conditioners and industrial furnaces; Electronic modules, in particular for use with electric motors; Graphite tubes and graphite furnaces for use in connection with atomic spectroscopy; Furnaces for laboratory experiments; Atomic absorption spectrophotometers, in particular using graphite furnace technology for use in analytic and diagnostic laboratories; Cuvettes; Metal contacts for power transmission; Conductor lines; Metal strands (electric) for power transmission; Components of carbon, carbon fibre composite (CFC) and graphite, namely carbon brushes, brush holders and guides, contact strips, pantographs, current collectors and circuit boards, also for laboratory analysis apparatus; Chemical apparatus and instruments, namely for atomic absorption spectroscopy, in particular of carbon, carbon fibre composite (CFC) and graphite for use in analytic and diagnostic laboratories, photovoltaic, semiconductor and heat treatment industry; Analytic apparatus, namely for atomic absorption spectroscopy other than for medical purposes for the analysis of metals and metalloids; Measuring, checking (supervision), analyzing and regulating apparatus for air-conditioning technology, heat flow, temperature, gas, pressure, humidity, sound and vibration, namely thermometers, electrotechnical vibration meters, gas meters, barometers, and sound level meters; Electrical and electronic controlling and regulating apparatus for air-conditioning, heating, cooling, drying and ventilation apparatus, namely electromechanical control for water heaters, coolant-temperature sensors; Value indicators, namely temperature gauges; Temperature shock test chambers; Testing

apparatus and devices for ozone, corrosion, dust, rain and electromagnetic compatibility; Emission test chambers for characterizing volatile organic compounds (VOC); Melting pots for laboratory purposes, also for photovoltaic processes and pure crystal growing; Ovens for laboratory purposes; Ovens for laboratory experiments; Wind tunnels; Accessible vacuum chambers for testing goods for research, development and production; Special test benches, in particular for environmental simulation installations; Low and high pressure chambers for person, product and perimeter protection, in particular for microbiological laboratories, parenteralia plants, solids plants or for the production of active pharmaceutical ingredients

Class 11

(5) Apparatus for heating, refrigerating, drying, ventilating, namely, temperature test chambers, climate chambers, microwave ovens for industry, heat treatment ovens; Apparatus for generating, checking (supervision) and regulating cold, heat, humidity, climate, light, air composition, air speed, air filtering, corrosion, high and low pressure, vacuum, sound and vibration, in particular for testing goods in research, development and production, namely heat accumulators, heat exchangers, heat pumps, humidifiers, filters for air conditioning units; Simulators for different climates, namely environmental simulation chambers for the production of different climates; Temperature and climate chambers for testing of metals; Temperature and climate chambers for environmental tests; Environmental simulation chambers for research development and production for simulation of different climates; Cooling and freezing devices, namely walk-in coolers and freezers and cooling and freezing chambers; Small cooling chambers; Cooling installations, namely air cooling apparatus, apparatus for refrigerating cooling water, water re-cooling towers; Refrigerating chambers; Cryogenic testing and storage cabinets; Freezers; Fans for air conditioning; Air-conditioners; Refrigerated shipping containers; Cold, heat, climate and vacuum chambers in cabinet form for climate simulation; Air conditioners, air purifying units and air cleaning units in cabinet form, for use in computer rooms, measuring rooms and clean rooms for the food and pharmaceutical industry, intensive care units, operation theaters and other functional areas of a hospital; Air conditioners for special purposes, in particular in box form; Air conditioners in cabinet forms; Window air conditioning units; Measuring air conditioning units in cabinet form for use in stables and swimming facilities; Water recooling towers; Pipe freezers; water coolers; Refrigerant condensers; Ceiling coolers; Room air humidifiers and dehumidifiers; Apparatus and installations for heat treatment for production, research and development, namely heat treatment ovens; Hot air ovens; Portable electric heaters; solid, fluid or gaseous fuels heaters for heating water; Hot air ovens; Heat pumps; Heat reclamators; Heat accumulators; Heat exchangers; Heat sterilizers for water treatment; Fuel evaporation chambers (SHED); Cooling evaporators; Heat and dry cabinets; Heat cabinets for inert gas operation; Explosion-proof dryers, namely drawer ovens and continuous furnaces; Dryers for continuous drying and heating processes, in particular drawer ovens, continuous furnaces, vertical inline ovens, top-loading ovens, tempering and curing furnaces; Ovens and furnaces for industrial use, namely heat treatment; Oven linings and oven fittings (shaped), in particular of graphite felt; Jet and flame pipes being parts of burners and furnace installations; Industrial ceramic burners; Burner pipes; Spray nozzles, in particular for flue gas sulfurization installations, made of ceramic materials or enameled material; Clean room installations and components; Clean room sterilizers and dryers; Locks for preventing the introduction of pollutants into clean rooms; Vacuum chambers for laboratory use; Fans for air conditioning units; Air filters for air conditioning units; Air filtering and cleaning systems for capturing and exhausting emissions and pollutants; Air sterilizers; Air humidifiers; evaporative air coolers; Air deodorizing units; Ventilating hoods; Wall and ceiling panels with integrated ventilation inlets; Supply air systems for operation theaters being air supply ceilings or being wall outlets

Class 12

(6) Power transmission couplings for land vehicles; Parts of motors for land vehicles, namely automobiles and motorcycles made of carbon, carbon fibre composite (CFC) and graphite, in particular contact parts, sliding contacts, contact strips, electrodes, carbon brushes, holders and guides for carbon brushes, sliding inserts, current collectors, pantographs

Class 17

(7) Sealant compounds for joints; Sealing rings for industrial machines; Sealing compounds for industrial machines; fiber reinforced insulation for ovens, high-temperature applications and the photovoltaic industry; Carbon materials (semi-finished products), namely sleeves for rotors, sliding ring seals, electric current collectors, aforesaid semi-finished products also being impregnated, reinforced with resin and having surface protection layers made of pyrolytic carbon, silicon, diamond; Carbon composite materials (semi-finished products), namely crucibles, tubes and pipes for production installations for producing silica, auxiliary tools and spare parts for heat treatment ovens, aforesaid semi-finished products also being impregnated, reinforced with resin and having surface protection layers made of pyrolytic carbon, silicon, diamond; Carbon graphite materials (semi-finished products), namely graphite electrodes, carbon brushes for use in motors, graphite packing for gaskets, heaters, switching contacts, contact pieces, collector shoes, carbon sliding strips, contact shoes, grounding contacts, sliding contacts, and pantographs, moldings made of carbon materials, where appropriate in combination with parts of metal or plastics, not for use in building, for use in ovens, photovoltaic processes, silicon production and heating applications, pistons, aforesaid semi-finished products also being impregnated, reinforced with resin and having surface protection layers made of pyrolytic carbon, silicon, diamond; Graphite materials (semi-finished products), namely, sleeves for rotors, sliding ring seals, electric current collectors, graphite electrodes, carbon brushes for use in motors, graphite packing for gaskets, heaters, switching contacts, contact pieces, collector shoes, carbon sliding strips, contact shoes, grounding contacts, sliding contacts, and pantographs, moldings made of carbon materials, where appropriate in combination with parts of metal or plastics, not for use in building, for use in ovens, photovoltaic processes, silicon production and heating applications, pistons, aforesaid semi-finished products also being impregnated, reinforced with resin and having surface protection layers made of pyrolytic carbon, silicon, diamond; Carbon fibers (other than for textile purposes) in the nature of insulation for ovens and plates for use in photovoltaic systems and industry; Components of fiber composite materials (other than for building purposes), namely crucibles, tubes and pipes for production installations for producing silica, auxiliary tools and spare parts for heat treatment ovens ; Graphite felt insulation

SERVICES

Class 40

(1) Heat and chemical treatment of metal surfaces; heat treatment of metal; Finishing of metal surfaces

Class 42

(2) Scientific services and research in the field of carbon technology and ceramics, environmental climate, vibration and shock simulation technology, sintered metal technology and ultrasonic welding technology; Structural and functional analysis of ceramics and sintered metal and research in the field of carbon technology and ceramics, sintered metal technology and ultrasonic welding technology; Design and development of computer hardware and software, in particular for controlling machines, apparatus and electronic devices; Development of apparatus and devices for generating cold, heat, humidity, climate, light, air mixture, high and low pressure, vacuum, sound and vibration, namely, furnaces for laboratories, wind tunnels, vacuum chambers, ovens for

laboratory experiments; Services of a chemical engineer, chemist services; Technical consulting and project planning in the field of climate control and air-conditioning technology; Planning, certification, quality testing and monitoring of factories in the field of climate control and air-conditioning technology namely clean and ultra-clean rooms, in particular for the chemical, pharmaceutical, food, beverage industry, medical technology (except for biotechnology) and sterile laundries; Review and assessment of production processes including the generation of corresponding documentation, namely factory data capture, reviewing data, monitoring and documentation of production parameters

Colour Claim
Colour is claimed as a feature of the trademark. The upper portion of the mark consists of a circular design, with an incomplete, grey outer ring with a break at the top of the ring created by a black rectangle, wherein the right end of the split ring is beveled, and wherein the outer ring has an outer and inner chamfer where the angle of the inner and outer chamfer continuously changes all around the outer ring, and the inner chamfer of the ring is divided into three equal facets separated by a change in pitch and radius of the inner chamfer. The design within the incomplete outer ring is an image of a solar eclipse defining earth in front of sun highlighting a spark of energy from the sun on upper left side, wherein the image consists of a black outer ring, which encases an orange ring, which encases a yellow ring, which encases a solid circle wherein the color transitions from indigo

blue at the upper left to black at the lower right of the circle, and the oblong spark on the upper left side consists of a yellow upper half that spans the yellow and orange bands and a white lower half that enters the solid circle. The word KARMA is grey with dark grey shading.

dynamometers; money counting and separating machines; record players; magnetic discs, namely, blank magnetic discs; acoustic recording discs, namely, blank audio discs; compact disc players or readers; phonograph records; phonograph record cleaners; computer disc drive; electrical measuring devices, namely, analog multimeters, digital multimeters and digital clamp meters; floppy discs, namely, blank floppy discs; distance measuring equipment, namely, laser distance measurers; electrical loss indicators; electrolyzers; entertainment equipment to be used with tv receiver only, namely, joy sticks, video players, video game machines for use with an external display monitor, and remote control devices, namely TV remote controls; scanner (data processing equipment), namely, computer scanners; stage lighting controllers; spectrographs; spectroscopes; personal stereos; fiber optic (light conducting filaments), namely, optical fibres; physics apparatus and equipment, namely, magnifier lamps; flash bulbs; fluorescent screens; photocopiers (photographic, electrostatic, thermal); photo-telegraphs (apparatus); frequency meters ; fuses, namely, electrical fuses; galvanization apparatus, namely, galvanizing kettles; sound recording equipment, namely, sound recording and playback machines; recorders, namely, digital video recorders (DVR); photographic printers; inducers (electricity); electrical installations for remote control of industrial operations, namely, remote controlled electric and electronic video surveillance installations; electrical switches, namely, electric switch mode transformers; inverters (electricity), namely, inverters for power supply; flashlights; electric rails for mounting lights; thermionic lights and bulbs; laptops; laser (not for medical use), namely, laser diodes; optic readers , namely, optical disk readers; limiters (electricity), namely, circuits used in amplifiers to restrict electricity output; automatic distribution machines, namely, distribution boxes for electrical power; pressure meters; modems; electrical monitoring equipment, namely, multimeters with monitoring software; monitors (hardware), namely, computer monitors; mouse (hardware), namely, computer mouse; mouse mats, namely, computer mouse pads; satellite navigation equipment, namely, global positioning system (GPS) consisting of computers, computer software, transmitters, receivers and network interface devices; neon signs; observation instruments, namely, telescopes and binoculars ; oscillographs eye pieces, namely, optical lenses for oscillographs; ovoscopes; control panels (electricity); projection screens; video screens; spark arresters; lightning conductors; particle accelerators; electrical batteries, namely, electric storage batteries; electric clothes irons; electric shrink wrapping apparatus, namely, heat sealing machines for packing; electronic pens (for visual display units); polarity meters; electric door phones; electric door bells; two-way radios (walkie-talkies); radio transmitters (telecommunications); beepers, namely, pagers; vehicle radios; telephone receivers; electrical network material (wire, cables), namely, electric wires and cables; reducers (electricity), namely, devices used to reduce electrical power supplied through a circuit; electric rails, namely, electric conductor rails comprising of conducting wire and insulated covers; electrical relays; checking in clocks; electrical resistances; electrical anti-theft installations, namely, electric and electronic video surveillance installations; juke boxes; semiconductors; radio telephone sets; sonometer; tachometer; computer keyboards; video-telephones; mobile telephones; telegraphs (apparatus); tele-printers; range finders; stepping switches, namely, rotatory stepping switches; teletypes; television equipment, namely, television sets; temperature indicators; thermionic valves (radio); thermostats; electronic pocket translators; transformers (electricity); transistors (electronics); electronic signal transmitters, namely, bluetooth audio transmitters and video RF transmitters; urometers; vacuum indicators; vacuum meters; light controllers; speedometers; speed indicators; video recorders; voltage protectors; volt meters; electric buzzers; wireless routers (electronics); memory sticks (electronics); computer memories, namely, memory boards; vehicle voltage inverters (electronic); power sources (electronics), namely, electric batteries for vehicles; hot air gun (electronic); cable tester (electronics); multi-meters (electronics); electric soldering and stripping irons; remote control extensions (electricity), namely, IR extenders; wireless and wired audio and video transmitters and receivers; remote control (electricity), namely, universal tv remote control, air conditioner remote control and auto-learning remote control; satellite receivers for free channels (electricity); fixed audio and video modulators (electricity); splitters (electricity), namely, electric cable splitters; coaxial output audio and video convertors (electricity); call identifiers (electronics); apparatus for games to be played with a television receiver only, namely, video game cartridges for use in video game machines.

panel pointers; electronic light pointers; electric arc cutting equipment, namely, electric arc cutters; sprinkler systems, namely, fire sprinklers; astronomy apparatus and equipment, namely, telescopes , binoculars and lenses for telescopes and binoculars; electrical devices for killing and trapping insects, namely, electronic bug zappers; earphones; audio and video receivers; audiovisual teaching apparatus, namely, data projectors, slide projectors, DVD players and overhead projectors ; telephone ear pieces, namely, headsets for telephones; light ballast; lit beacons; electrical wire marker bands; barometers; high-voltage batteries, namely, electrical storage batteries for storing high-voltage electricity; electrical batteries, namely, electrical storage batteries; electrical battery chargers, namely, chargers for general purpose batteries; electrical vehicle batteries; torch or flashlight batteries; solar batteries; betatrons; binoculars; electrical coils; electromagnetic speakers, namely, audio speakers; boiler control instruments, namely, electromagnetic switches for monitoring boilers; bell buttons; electrical door arms; vacuum tubes (radio); wetsuits, namely, diving suits; spirit levels; depth sounders; skin diving apparatus, namely, diving goggles and diving regulators; skin diving gloves; skin diving masks; telephone wire; cable connectors (electricity); coaxial cable; jump leads; fiber-optic cable; electrical cables; electrical cable sheathing; electrical cable splicing sleeves; shunt boxes (electricity); distribution boxes (electricity); receptacles (electricity), namely, electrical outlets; switch boxes (electricity); cash registers; electronically heated socks; calculators; thread gages, namely, gages to measure the pitch of a screw thread; photographic cameras; decompression chambers; video cameras (portable); computer disc changers; road signs (lit or mechanical); battery chargers, namely, general purpose battery chargers; electrical battery chargers, namely, chargers for electric storage batteries; videogame cartridges; cassette players; videocassettes; electrical soldering irons; cd readers or players; cd (audio-video), namely, blank audio and video compact discs; cd-rom (memory reading), namely, CD-ROM readers; cell switches (electricity); cell phones; electric fences; electric locks, namely, electronic lock assemblies; close circuits, namely, circuit breakers and circuit closers; movie editing equipment, namely, split reels, film synchronizers and plastic cones; movie cameras; exposed movie film; magnetic tape units for computers; audio recording tape, namely, blank sound recording tapes; videotape, namely, blank videotapes; head cleaning tape for recorders; magnetic tape, namely, blank magnetic computer tapes; smart cards, namely, blank integrated circuit cards; short circuits, namely, electronic short circuits; printed circuits; integrated circuits; magnetic encoders; barcode readers; electric collectors, namely, electric current collectors; compact discs (audio-video) , namely, blank CD-ROMs for sound or video recording; compact disc memory reader; peripheral computer accessories, namely, keyboards, computer mouse, bar code scanners, memory card readers, USB hubs, webcams, Ethernet adapters and USB adapters; computer software (downloadable software), namely, radio frequency program for two way radios; recorded computer operating systems; computers; computer printers; wrist rests; computer memories; computer keyboards; personal computers; electrical conductor-coated glass; electric conductors, namely, electric wires to conduct electricity; conduits (electricity); connectors (electricity), namely, electrical connections boxes; connection panels; connections (electricity), namely, connections for electric lines; electrical connections, namely, electric wires and connection fittings therefor; electrical line connections; electrical switching equipment, namely, electric current switches and electric switch plates; switchers, namely, electric flasher switches; distribution consoles (electricity); accounting machines, namely, cash registers; contact protectors, namely, contactors used to prevent degradation of electrical contacts of an electromechanical switch; contacts (electrical connections), namely, electrical conductive alloys of precious metals used in electrical switches, relays and circuit breakers; electrical contacts, namely, electrical conductive alloys of precious metals used in circuit boards; electrical contacts made from precious metals, namely, electrical conductive alloys of precious metals used in circuit boards; counters (meter), namely, carpenters' folding rules; answering machines; remote-control equipment, namely, remote control extenders; electrical convertors; current rectifiers; outlets (electrical connections); cpu (processors); switchboards (electricity); dark room lights; line testers (instruments), namely, screw driver line testers, receptacle testers and non-contact voltage testers; odometer (podometer); checking in clocks; chips (integrated circuits); magnetic data support media, namely, blank magnetic discs; hydrometers; detectors, namely, humidity detectors and metal detectors; smoke detectors; forged currency detectors; projectors, namely, color video projectors; dictaphones; dimmers, namely, electric light dimmers; dynamometers; money counting and separating machines; record players; magnetic discs, namely, blank magnetic discs; acoustic recording discs, namely, blank audio discs; compact disc players or readers; phonograph records; phonograph record cleaners; computer disc drive; electrical measuring devices, namely, analog multimeters, digital multimeters and digital clamp meters; floppy discs, namely, blank floppy discs; distance measuring equipment, namely, laser distance measurers; electrical loss indicators; electrolyzers; entertainment equipment to be used with tv receiver only, namely, joy sticks, video players, video game machines for use with an external display monitor, and remote control devices, namely TV remote controls; scanner (data processing equipment), namely, computer scanners; stage lighting controllers; spectrographs; spectroscopes; personal stereos; fiber optic (light conducting filaments), namely, optical fibres; physics apparatus and equipment, namely, magnifier lamps; flash bulbs; fluorescent screens; photocopiers (photographic, electrostatic, thermal); photo-telegraphs (apparatus); frequency meters ; fuses, namely, electrical fuses; galvanization apparatus, namely, galvanizing kettles; sound recording equipment, namely, sound recording and playback machines; recorders, namely, digital video recorders (DVR); photographic printers; inducers (electricity); electrical installations for remote control of industrial operations, namely, remote controlled electric and electronic video surveillance installations; electrical switches, namely, electric switch mode transformers; inverters (electricity), namely, inverters for power supply; flashlights; electric rails for mounting lights; thermionic lights and bulbs; laptops; laser (not for medical use), namely, laser diodes; optic readers , namely, optical disk readers; limiters (electricity), namely, circuits used in amplifiers to restrict electricity output; automatic distribution machines, namely, distribution boxes for electrical power; pressure meters; modems; electrical monitoring equipment, namely, multimeters with monitoring software; monitors (hardware), namely, computer monitors; mouse (hardware), namely, computer mouse; mouse mats, namely, computer mouse pads; satellite navigation equipment, namely, global positioning system (GPS) consisting of computers, computer software, transmitters, receivers and network interface devices; neon signs; observation instruments, namely, telescopes and binoculars ; oscillographs eye pieces, namely, optical lenses for oscillographs; ovoscopes; control panels (electricity); projection screens; video screens; spark arresters; lightning conductors; particle accelerators; electrical batteries, namely, electric storage batteries; electric clothes irons; electric shrink wrapping apparatus, namely, heat sealing machines for packing; electronic pens (for visual display units); polarity meters; electric door phones; electric door bells; two-way radios (walkie-talkies); radio transmitters (telecommunications); beepers, namely, pagers; vehicle radios; telephone receivers; electrical network material (wire, cables), namely, electric wires and cables; reducers (electricity), namely, devices used to reduce electrical power supplied through a circuit; electric rails, namely, electric conductor rails comprising of conducting wire and insulated covers; electrical relays; checking in clocks; electrical resistances; electrical anti-theft installations, namely, electric and electronic video surveillance installations; juke boxes; semiconductors; radio telephone sets; sonometer; tachometer; computer keyboards; video-telephones; mobile telephones; telegraphs (apparatus); tele-printers; range finders; stepping switches, namely, rotatory stepping switches; teletypes; television equipment, namely, television sets; temperature indicators; thermionic valves (radio); thermostats; electronic pocket translators; transformers (electricity); transistors (electronics); electronic signal transmitters, namely, bluetooth audio transmitters and video RF transmitters; urometers; vacuum indicators; vacuum meters; light controllers; speedometers; speed indicators; video recorders; voltage protectors; volt meters; electric buzzers; wireless routers (electronics); memory sticks (electronics); computer memories, namely, memory boards; vehicle voltage inverters (electronic); power sources (electronics), namely, electric batteries for vehicles; hot air gun (electronic); cable tester (electronics); multi-meters (electronics); electric soldering and stripping irons; remote control extensions (electricity), namely, IR extenders; wireless and wired audio and video transmitters and receivers; remote control (electricity), namely, universal tv remote control, air conditioner remote control and auto-learning remote control; satellite receivers for free channels (electricity); fixed audio and video modulators (electricity); splitters (electricity), namely, electric cable splitters; coaxial output audio and video convertors (electricity); call identifiers (electronics); apparatus for games to be played with a television receiver only, namely, video game cartridges for use in video game machines.
